Welcome to the July 2022 edition of the CPOC newsletter,

Thank you for subscribing and supporting CPOC, contact us at CPOC@rcoa.ac.uk if you have any content you think we should share in our newsletters.

TRIPOM 2022 Conference
Supported by CPOC, RCoA and Edwards
22 September 2022

[More Information](#)

"The health service is facing record waiting lists. If we transformed waiting lists into preparation lists and gave patients the support they need to improve their health, we could avoid so many cancellations and unnecessary surgical complications. This would free up staff time, reduce waiting lists, save the NHS money, and improve patient outcomes."

Dr David Selwyn, CPOC Director

Parliamentary Report on Health and Care Workforce

The Parliamentary Health and Social Care Committee have [published the report of its Expert Panel inquiry into the health and care workforce](#). The report highlights the unprecedented NHS backlog and the failure of the Government to meet its healthcare commitments.

In order to get waiting lists down, the Government needs to do two key things: address staffing shortages and help embed better ways of working.

We were very glad to see that the report referenced perioperative care and how prehabilitation programmes can reduce post-operative (after surgery) complications by 30–80% and reduce the length of stay after surgery by 1–2 days.

Commitments to perioperative care were made in the elective recovery plan and it is now vital that the Government implements them.

14% of Peters regret having surgery

15% of Peters do not go ahead with surgery if a shared decision making discussion takes place

A Shared Decision Making conversation can help Peter decide what is best for him.

NEW

Decision Support Tools

New tools created to support shared decision making between clinician and patient by explaining treatment, care and support options to help the patient consider what matters most to them.

Anaesthesia Research 2022 - Awards & Prizes

22-23 November 2022

[Malmaison Hotel, York](#)

The upcoming [Anaesthesia Research 2-day conference](#) will be the NIAA's first in-person live event in 3 years and we are looking forward to welcoming all delegates back to York!

Content: Highlighting current anaesthesia and perioperative research, bringing together national anaesthetic research organisations and delegates including anaesthetists, surgeons, basic scientists and health services researchers

As part of the Anaesthesia Research event programme there are also opportunities for research engaged clinicians and investigators to showcase their research work:

The NIAA Research Award is open to researchers/investigators of anaesthesia, perioperative or pain research that have completed a research project 'body of work' (i.e., two or more research papers, or a higher degree thesis), who are at Consultant or equivalent, trainee or early career level. A prize of £500 is available. [Click here for more information.](#)

The joint RCoA/NIHR CRN Research Awards are designed to recognise NHS clinicians that are making outstanding contributions to clinical research, particularly in relation to NIHR CRN portfolio research studies. There are three categories: Consultant, Trainee (individual), and Trainee Network (group) - each with a £1,000 prize and plaque for the winner of each category. [Click here for more information.](#)
